

SCENARIO – SPECIAL RULES

Scenario Length [32.4.1]
- First turn: DEC 18 PM - Last turn: DEC 20 Night

Initial Deployment
- See Setup Card (S2)

Weather and ground conditions
- Overcast weather with normal ground conditions

Map Boundaries
- Area of play is displayed on the scenario map
- Partial hexes on map-area are in play

Sequence of Play
- No Supply Rules (all units are fully supplied and fueled)
- No Extended Night activity
- No Leaders
- No Random events
- No Replacements rules
- No Air

Ammo Depletion value
- GE 3
- US 7

US Movement restrictions
- No US unit may move east of hexrow 3400
- NO US unit may move adjacent to any of the German entry hexes.
- 101st AB may not move more than 6 hexes away from Bastogne at any time
- No US unit may move in or adjacent to Houffalize

German fuel shortage
DEC 20 AM: German 1d10, use result from table below

0-3 2PzDiv halved MA for the rest of day/night (round up)

4-6 PzLehr halved MA for the rest of day/night (round up)

7-9 No fuel shortage

TO SAVE BASTOGNE

The XLVII Pz Korps had just spent the previous two days crossing the Our River and destroying the 110th Infantry Regiment of the 28th Division. Due to the gallant stand of numerous company sized outposts along "Skyline Drive" (a road running along the ridgeline containing the international highway), the von Luetwittz's panzer corps had fallen behind schedule. A last-ditch defense at Clervaux (which was to have been taken on the 16th) finally crumbled early on the morning of the 18th. Now, at last it seemed, the panzers would break out into the relatively open terrain on the Taille plateau and resume the drive to the Meuse. But the Americans had not been idle.

The CCR of 9th Arm Division, which was the VIII Corps reserve, was busy setting up armored roadblocks, and CCB of 10th Armored was on the move from south of Luxembourg City. The biggest reinforcement, however, was the 101st Airborne Division, which had been resting and refitting at Camp Mourmelon, near Reims, along with the 82nd Airborne. Both divisions were originally slated for action near Werbomont, but the 101st was hastily rerouted to its historic destiny. CCR/9A was practically destroyed, and CCB/10A was roughly handled, but each bought enough time for the three parachute infantry regiments and the glider regiment of the 101st to emplace and protect Bastogne.

Sticking to his strict timetable, Manteuffel could not divert the full resources needed to take Bastogne. So instead, he invested it with the 26th VG Division and a detached KG from Panzer Lehr.

VICTORY CONDITIONS [32.4.7]

Instant major German victory (all conditions must be met)
- None

End of Scenario conditions
- Count VP, player with most VP wins, a tie in VP's is a draw.

Allied Victory Points
- 4 VP to Allied player for each controlled Bastogne hex. US unit must occupy the VP hex or be the last to do so. If a Bastogne is un-occupied and GE are adjacent to it US gains no VP's for that hex.
- US loose 1 VP if there aren't at least two units (not CO breakdowns) remaining of CCB/10Axx

German Victory Points
- 2 VP's for each KG (min 5 units) that exits the playing area from a black cross symbol. Note that vPors/ PzLehr must exit between 2917SE and 1317SE
- If the German manages to get any KG off the map before 20 Dec AM he gains one extra VP

Note: No German VP's for the Bastogne hexes

DEC 16 Setup Manifest (Scenario book)

- **"Man Res"** Means all the units of that formation are in maneuver reserve at the start of Dec 16.
- **"Bkdwn OK"** means the unit may start broken down into companies.
- **"(Div)"** indicates the unit may start stacked with any other unit of the division that has a set up hex; stacking restrictions still apply.
- **"In transit"** indicates the unit is not yet in play but will arrive as a reinforcement on a future game turn.
- A number in **parentheses** after the unit's ID indicates a step loss or that one of the companies has been detached.
- Sometimes a special instruction will indicate along what hex rows a unit may or may not set up (**for example, xx11**).
- **"KG"** refers to the Kampfgruppe sub-formation within a division. Those units usually operate near each other.
- **"Co"** indicates a company.
- If **brackets** follow [], they indicate the friendly unit must not be any closer than the number of hexes indicated inside the brackets.
